

*“For nothing
will be impossible
with God”*

Luke 1:37

From all of us at PassionLife, Merry Christmas!

No matter how many years of experience you have, or how many skills you possess, or how much data analysis you’ve done, some things remain impossible...unless the Lord is in it. Nothing is impossible when he has purposed it. Remember, this is the way Gabriel talked to the virgin, Mary, about her conception. The Lord was in it, he assured her, saying, “For nothing will be impossible with God” (Luke 1:37).

I cling to these words as I tell you what is now before us. You and I are already tackling a challenging mission: rescue the most innocent in the hardest places—where abortion, infanticide and gendercide are most concentrated in the world. According to our data, India now suffers the highest rate of abortion in the world. It’s the new #1!

Cuba was #1. For the last 8 years, we’ve stormed the stronghold of Cuba together. We have shared with you the stories and pictures of Cuban Christians rising up as cross-bearers for child-bearers. They’ve opened 16 pregnancy help clinics across the island so far and are now #4 worldwide in the number of abortions.

Tackling India, buckles my knees! Cuba is about the size of Florida. India covers half the continental US. India has 1.46 billion people! Cuba has 10 million. India is now more populous than China. Twenty-seven percent of Indians are under 15 years old. This is a nation heading into abortion with a Tsunami-like force.

India is a hostile environment for Christians. India’s government operates on a Hindutva (Hindu nationalist) platform, creating many barriers for Christian mission work. There is violent and deadly persecution against Christians, especially in the northern regions. PassionLife’s

Mark Nicholson and Kolkata pastor, Amit Paul, have led our efforts in India to date, all of which have been in the north.

The caste system is a bastion of oppression, intensifying the stronghold of abortion. For thousands of years, the caste system taught people to believe that there is no such thing as equality of human value. Instead, one’s value (and by extension, one’s rights) is determined by race, language, gender, and economic status. By targeting India, we are not simply attacking a practice; we are engaging in a worldview battle.

The cultural complexity of India is mind-boggling. India has 456 languages, of which 22 are official languages! Cuba has one official language. Even China, vast as it is, has only one official language. To penetrate India, we must work in many languages and consider how to approach the strongholds of

Hinduism, Islam, Sikhism, Buddhism, and Jainism, which are deeply embedded in everyday life.

India is too hard, too dangerous, too complex, too expensive. It's impossible...

unless the Lord is in it.

The data now tells us that India is the hardest place on earth for a baby to survive till birth. If we are to be faithful to our mission calling of going where the most innocent on earth are being intentionally killed, we can only "strengthen our weak knees" and set India as our next goal.

With your prayerful support and year-end generosity, we expect to expand our leadership team and increase our mission in India in 2026. We need your partnership. And if you share this letter with your home group, or church, perhaps they too will join in the Great Work as

monthly partners. Ask them, please. Together, as givers and goers, we will access new networks of churches, working in multiple languages among pastors. We will 3D print and ship box upon box of PassionLife Tiny Baby® fetal models to India so that those who are trained by PassionLife can distribute them as they teach their churches to stand for life and rescue babies. Pregnancy help services will emerge 6-12 months later. It will take years of effort! It's an audacious goal!

Now that I think about it, I'm excited to see what God will do, because our God delights in doing audacious things!

The missionary, William Carey (1761-1834), stared at the stronghold of India and declared: "Expect great things from God. Attempt great things for God!" Will you attempt great things with us? I realize you receive many appeals, but you don't get many that seem impossible except for the Lord. Please consider a generous year-end gift or a monthly pledge, and together, let's storm the stronghold of India with the Gospel of Life!

Merry Christmas

from your PassionLife Family...

May the Lord be in it!
